

## *Contents*

Building A Software To Calculate The Stuck Free Point In      01-11  
Extended Reach And Horizontal Wells

Enhancing Text Encryption and Decryption through Auto      12-18  
encoder-Based Neural Networks

Hybrid Chaotic System-Based Encryption and Decryption      19-24  
for Medical Images Using Logistic and Improved Logistic  
Maps

Design of Hexagonal Multi Input Multi Output Antenna      25-31  
for Ultra-Wide Band Applications
